

The *Blueprint for Development in Southeast Fort Worth* is an investor's guide of land uses, development types and building options for growing Southeast's commercial corridors into vibrant urban centers. These mixed-use centers will serve the consumer needs of the local population, as well as create centers of attention that draw regional visitors.

The *Blueprint* encourages evaluation of the new growth opportunities in the area. The quality and scale of the projects envisioned will complement and support the integrity of this diverse and historic area.

Come, be a part of the dynamic change. *Grow Southeast!*
